

13 February 2020

Dear Parents/Carers,

As we have previously communicated, all schools in the trust are reviewing their curriculum. In light of this, we are consulting with parents and students about a number of proposed changes to our school day timings and curriculum in line with the trust changes. This has recently been presented to staff and governors.

Please find attached a consultation document and reply slip (due back Friday 28 February). This gives you the opportunity to read the information and ask any further questions or provide comments. I would ask that all parents/carers complete the reply slip, even if you do not have any comments or questions.

All students are having this information presented to them today and will be given a paper copy of the document. If you require a translated document into a different language, please do let us know.

Once we have received all replies, we will then provide further communication related to the responses.

Many thanks in advance of your time and consideration.

Mrs Jenny Brown

Head of School
Nottingham Free School
