

“Promise you’ll always remember; you are braver than you believe, stronger than you seem and smarter than you think.”

A. A. Milne

British Author – Writer of Winnie the Pooh

YEAR 10
HOMEWORK
KNOWLEDGE ORGANISER
Summer Term 1

Name: _____ Tutor Set: _____

English

We will be focusing on the following KOs this half term:

- Power and Conflict
- Lord of the Flies
- Paper 2 Language

Geography

We will be focusing on the following KOs this half term:

- Physical Geography Ecosystems
Unit 2 (Page 9-12)

Spanish

We will be focusing on the following KOs this half term:

- Module 6 – Customs and Festivals

Drama

We will be focusing on the following KOs this half term:

- Blood Brothers

Science

We will be focusing on the following KOs this half term:

Biology

- B16 – Adaptation, Interdependence and Competition
- B17 – Organising an Ecosystem

Chemistry

- C8 – Rates of Equilibrium
- C12 – Chemical Analysis

Physics

- P13 – Electromagnetic Waves
- P14 - Light

PE

We will be focusing on the following KOs this half term:

- Diet and Hydration
- Social, Physical and emotional benefits of exercise
- Mental preparation
- Feedback/Guidance
- Goal setting
- Characteristics and classifications of skills
- Participation (strategies)
- Commercialization
- Encouraging participation
- Factors Participation
- Goal setting
- Participation rates and trends
- Performance enhancing drugs
- Sportsmanship, gamesmanship and deviance

Engineering

We will be focusing on the following KOs this half term:

- NEA

Music

We will be focusing on the following KOs this half term:

- Dynamic, Rhythm and Structure
- Set Work 6

Food

We will be focusing on the following KOs this half term:

- Food Service

History

We will be focusing on the following KOs this half term:

- Germany Slides 15 to 20

Core Philosophy and Ethics

We will be focusing on the following KOs this half term:

- Religion and Relationships

Full Course Philosophy and Ethics

We will be focusing on the following KOs this half term:

- Religion and Life

Computer Science

We will be focusing on the following KOs this half term:

- 2.3 Producing Robust Systems

ICT

We will be focusing on the following KOs this half term:

- LO2 Client Requirements

Our weekly homework routines...

- 1 You will always be set at least one homework a week by your teacher.
- 2 Your teacher will choose the lesson they want you to learn and will pick it so that you are revising an important maths topic for revision. As such, you have already probably covered it in class but might have forgotten so your homework is to revise as, to be a great learner, you need to revise all the time (not just before tests!).
- 3 You need to spend **between 30 minutes and 1 hour** on your homework as this shows effort and commitment and will ensure that you do quality homework.
- 4 You will always be expected to
 - i) watch the video + take notes;
 - ii) write down your quiz workings neatly;
 - iii) mark your own work, make corrections and write down your score at the end.
- 5 Homework will be checked by your teacher in class once a week during your starter. You will be expected to bring your homework book to class and leave it open on the desk for your teacher to inspect.

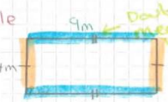

Student checklist for good HegartyMaths homework		✓ or ✗
1	I always write the date, title, clip number and H/W for all my tasks.	
2	I always watch the video before attempting the questions.	
3	I always take full notes of all the examples modelled in the video.	
4	I copy every question that I attempt in my book.	
5	I show all my workings for every question in the quiz that I do.	
6	I try to model my work the way I was shown in the video by Mr Hegarty.	
7	I use a pencil and ruler for all diagrams.	
8	I mark my work correct/incorrect as I go.	
9	I write down corrections when HegartyMaths tells me the correct answer.	
10	I write down my score at the end of quiz.	

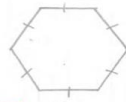

5 things you should do when you want to do extra work

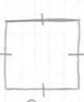

Action	✓ or ✗
1 I go back to my donut and pick lessons that are red (<70%) to redo them to make them amber (>70%) or green (100%).	
2 I go back to my donut and pick lessons that are amber (>70%) to redo them to make them green (100%).	
3 When working on lessons that are red or amber and I cannot make them 100% , I rewatch the video and look at the building blocks which may help me.	
4 I complete a Fix-Up-5 where HegartyMaths gives me 5 practice questions on parts of maths that I might be weak on.	
5 If my teacher has given me a revision list of clips on HegartyMaths, then I pick a topic on that list and complete a homework the normal way by myself.	

VIDEO NOTES
Hegarty maths: Perimeter (2) 14th July 2016

Example 1

 Perimeter = $7+7+7+7$
 $= 4 \times 7$
 $= 28 \text{ mm}$

Example 2

 Perimeter = $4+9+4+9$
 $= 18+18$
 $= 2 \times 9 + 2 \times 4$
 $= 18 + 8$
 $= 26 \text{ m}$

Example 3

 Perimeter = 6×9
 $= 54 \text{ m}$

Example 4

 Perimeter = 4×5
 $= 20 \text{ cm}$

Example 5

 Perimeter = 3×4.1
 $= 3 \times (4 + 0.1)$
 $= 12 + 0.3$
 $= 12.3 \text{ mm}$

Key Words:
 • Length
 • Units
 • Distance

Don't forget units!

Regular means all sides are same length

Double dash means same length but not same as single dash

Doesn't matter which method you use, they all work!

Here is an example of a great homework!

Work out the perimeter of an equilateral triangle with side length 4.1mm.

Work out the perimeter of a square with side length 5cm.

Work out the perimeter of a regular hexagon with side length 9m.

Use algebraic law of multiplication

You will **always** produce a set of well-written notes of all the modelled examples in the video as we want you to be an expert note-taker and to revise before you try the quiz. **If you know the material, you still have to take the notes as sometimes you have to revise topics you already know and it's good for your long-term maths memory.**

Your planner will not be signed off if you do not complete your workbook.
